SUPPRESSION COMPONENT CODING

Suppression codes are composed of two types:

- Collocation Codes to be reviewed for proper provisions prior to assignment.
- Incident Numbering System.

The State of Alaska's coding sequence is collocation code – ledger code – account code.

Collocation Codes

Collocation codes may stand alone; however, an incident number must always be preceded by the collocation code 10310130.

Collocation Office Code		Use	Special Provision
10310130	ALL	Suppression	Always used with an incident/fire number
10312030 10312031	Coastal Northern	Detection Flight Time	Aircraft flight time, fuel lubricants, specifically used for the discovery of new fires.

10310131	Northern	Commissary Purchases	The appropriate fire incident number is assigned with these collocation codes. Costs for items purchased must be recovered from personnel via payroll deduction.
10310132	Coastal		

10312130	Coastal	Fire Force Preposition	<u>Northern/Coastal Region/State Fire Operations Forester approval required.</u> Covers transportation, meals, and lodging in anticipation of wildland fire activity based on above normal fire danger or multiple fire occurrences when such charges cannot be coded to a specific fire. Preposition Restrictions: <ul style="list-style-type: none"> • Cannot be used for personnel time (see HFD & Crew Collocation Code Section); and • Should not be used if charges can be coded to a specific fire.

Ledger Codes

The Incident Number (ledger code) is an eight-digit number **assigned ONLY by the State Coordinator at AICC** according to the fire area location and is annotated after the collocation code as in the following example: 10310130 73X03011. **Example: Incident number 73X03011.**

- The first and second digits (73) denote the ledger number in the State accounting system.
- The third digit (X) is the last digit of the calendar year (CY) in which the incident occurred (200X).

**ALASKA DEPARTMENT OF NATURAL RESOURCES
DIVISION OF FORESTRY
ALASKA INCIDENT BUSINESS MANAGEMENT HANDBOOK**

- The fourth digit (0) represents the Region in which the incident occurred (Coastal).
- The fifth digit (3) represents the specific area within the general area in which the incident occurred (Kenai).
- The sixth, seventh and eighth digits (011) compose the consecutive fire incident number in the State of Alaska, issued from the Statewide log book located at AICC (the 11th fire incident that year).

			USFS Reimbursable Support - 7	
			Compact Incidents in Lower 48 – 8	
			ADES Support -9	

* Coastal and Northern have a second Region Code number that is used during fire seasons which have more than 1000 issued fire numbers. The State Coordinator assigned to AICC will authorize the use.

Search and Rescue Incidents (S&R)

When covered by a reimbursable service agreement, use agreement collocation code with ledger code. Using the CC 10310055, the ledger code is not necessary. When using CC 10310130, request the non-suppression reimbursable eight digit ledger code from AIFCC shift coordinator.

Emergency Firefighters (EFF)

EFF timesheets will be coded with appropriate eight digit State incident number in the Fire Name block of the OF-288. The appropriate AFS/USFS incident number is recorded in the Fire No. block of the OF-288.
